

EX NO:5

WRITE A SHELL SCRIPT THAT ACCEPTS NUMERICAL VALUES AND FIND SUM

AIM: To write a shell script that accepts numerical values and find sum

PROGRAM:

```
#!/bin/bash
echo "Enter size(N)"
read N
sum=0
echo "Enter Number"
for ((i=1; i<N; i++))
do
    read sum
    sum=$((sum+num))
done
echo $sum
```

RESULT:

Thus the shell script that accepts numerical values and find sum has been developed and executed successfully.
